

# COMPANY ENVIRONMENT COMMITMENT

The Box Films was founded in 2005 by executive producers Antonio Cappuzzello and Federico Levizzani.

Over the years the company has been enriched by new figures, young and enterprising people projected towards a new way of production. In line with the new spirit shared by our company policy, more dynamism, more attention to the supply chain and the environment.

The Box Films is a production company specializing in TV commercials, digital content and social platforms, press campaigns and narrative content.

We are based in Milan, but we shoot all over the world. Passion, originality and creativity are the basis of our DNA.

Sustainability and respect for the environment are essential points for us. The company constantly strives at every stage of the business process to fully respect the environment by adopting a Management System that complies with UNI EN ISO 14001:2015, which not only ensures compliance with environmental legislation and requirements, but also allows for continuous improvement in the environmental performance of its activities throughout their life cycle and to eliminate or mitigate risks to the environment.

The management of The Box Films is committed to high environmental standards through the implementation of the following principles:

---

## COMPLIANCE WITH ENVIRONMENTAL LAWS:

Commitment to comply with all environmental laws and requirements applicable to the activities carried out by the organization

## CONTINUOUS IMPROVEMENT:

constant search for improvement in environmental performance through measurable objectives

## ENVIRONMENTAL IMPACT MONITORING AND REDUCTION:

constant monitoring and reduction of direct and indirect environmental impacts resulting from the company's activities

## REDUCTION OF CONSUMPTION AND WASTE:

Reducing consumption of resources (fuel, water, paper) and encouraging the use of recycled raw materials whenever possible. Reduction of waste production and promotion of recycling.

## AWARENESS AND TRAINING:

Promotion of employee awareness and empowerment through training and information activities on environmental issues

## SUPPLIER MANAGEMENT:

Ensuring that suppliers' activities comply with environmental laws and promoting environmental management along the supply chain

## ENVIRONMENTAL EMERGENCY MANAGEMENT:

prevention and timely management of any environmental incidents through prevention and intervention procedures.

## COMMUNICATION AND TRANSPARENCY:

readiness for dialogue with the public on environmental performance and communication of the Environmental Policy to all people working for or on behalf of the organization.
